AFR NuVenture Resources Inc.
CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
For the three and six months ended November 30, 2022 and 2021
(Expressed in Canadian Dollars)

RESPONSIBILITY FOR FINANCIAL STATEMENTS

The accompanying unaudited condensed consolidated interim financial statements (the “Financial Statements”) for AFR NuVenture Resources Inc. (the "Company") have been prepared by management in accordance with International Financial Reporting Standards consistently applied (“IFRS”). These financial statements have been prepared on a historical cost basis with the exception of financial instruments classified as fair value through profit and loss. In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information. Accordingly, a precise determination of many assets and liabilities is dependent upon future events. Therefore, estimates and approximations have been made using careful judgment. Recognizing that the Company is responsible for both the integrity and objectivity of the financial statements, management is satisfied that these financial statements have been fairly presented.

NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the unaudited condensed consolidated interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed consolidated interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

The accompanying notes are an integral part of these Condensed Consolidated Interim Financial Statements

1. Nature of operations, basis of presentation and going concern uncertainty

AFR NuVenture Resources Inc. ("AFR" or the "Company"), an exploration stage company, was incorporated on May 12, 1980, in British Columbia. On November 23, 2021, the Company changed its name to AFR NuVenture Resources Inc. Its current principal business activity is the exploration and evaluation of mineral assets.

On April 26, 2019, the Company entered into an agreement whereby the Company may acquire a 51% interest in the Silver Bell - St. Lawrence Gold Project, in the Virginia City Mining District of Montana, USA (the "Project") and on March 8, 2022, the Company entered into an agreement whereby the Company may acquire up to a 100% interest in the Edge group of properties located in southwestern New Brunswick, Canada (Note 4).

The Financial Statements of the Company have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). The Company has presented the Financial Statements for the three and six-month periods ended November 30, 2022, and the comparative figures for the three and six-month periods ended November 30, 2021. The Financial Statements have been prepared by management and approved by the Board of Directors on January 27, 2023.

These Financial Statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. AFR is at an early stage of development and as is common with many exploration companies, it raises financing for its exploration and acquisition activities. As at November 30, 2022, the Company had no sources of operating cash flows. The Company will therefore require additional funding which, if not raised, would result in the curtailment of activities and project delays. As at November 30, 2022, AFR had a working capital surplus of $556,031 (a working capital surplus of $899,062 as at May 31, 2022), and has incurred losses since inception resulting in an accumulated operating deficit of $31,541,611. The Company's ability to continue as a going concern is uncertain and is dependent upon its ability to continue to raise adequate financing. There can be no assurance that the Company will be successful in this regard, and therefore, there is substantial doubt regarding the Company's ability to continue as a going concern, and accordingly, the use of accounting principles applicable to a going concern. These Financial Statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate. If the going concern assumption were not appropriate for these Financial Statements, then adjustments to the carrying values of the assets and liabilities, the expenses and the balance sheet classifications, which could be material, would be necessary. The Company is not at risk as to its ability to meet its financial obligations or its administrative expenses in the reasonably foreseeable future as it has sufficient cash to meet obligations for at least the next 12 months.

2. Significant accounting policies

These Financial Statements have been prepared in accordance with IFRS as issued by the IASB applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The Financial Statements do not include all financial risk management information and disclosures as required in the audited annual financial statements. The Financial Statements should be read in conjunction with the audited annual financial statements for the year ended May 31, 2022, which have been prepared in accordance with IFRS as issued by the IASB. The accounting policies and methods of computation remain the same as presented in the audited annual financial statements for the year ended May 31, 2022.

In the opinion of management, all adjustments considered necessary for fair presentation have been included in these Financial Statements. The interim results for the three and six-month periods ended November 30, 2022, may not be indicative of the results for the year ending May 31, 2023.

3. Reclamation bond

In connection with the Company's Silver Bell – St. Lawrence Gold Project, the Company posted a reclamation bond during the year ended May 31, 2020 with the State of Montana's Department of Environmental Quality in the amount of US$25,000.

4. Exploration and evaluation assets

Silver Bell – St. Lawrence Gold Project
On April 26, 2019, the Company entered into an agreement with a related party whereby the Company may acquire a 51% interest in the Silver Bell - St. Lawrence Gold Project, in the Virginia City Mining District of Montana, USA (the "Project"). Under the agreement, the Company may earn a 51% interest in the Project by making annual US$10,000 option payments (waived for 2020 and deferred by agreement for 2021 and 2022) and spending US$1,000,000 in exploration expenditures within four years with a minimum of $200,000 in expenditures during the first two years.

Based on the expenditures up to the year ended May 31, 2021, the Company has met the minimum of US$200,000 required with respect to the Silver Bell-St. Lawrence Gold Project. From April 26, 2019 to May 31, 2022, the Company spent approximately US$294,000.

Edge Properties
Effective February 23, 2022, the Company entered into an agreement with Edge Exploration Inc. ("Edge"), whereby the Company may acquire up to a 100% interest in a group of exploration properties located in southwest New Brunswick (the "Edge Properties"). Under the agreement, the Company may earn a 50% interest by paying Edge $264,000, issuing 300,000 common shares and expending $1,800,000 in exploration expenditures by March 8, 2025. The Company can earn an additional 25% (total 75% interest), by issuing to Edge an additional 2,000,000 common shares and expending an additional $4,000,000 in exploration expenditures by March 8, 2027. The Company can earn an additional 25% (total 100% interest), by issuing to Edge an additional 2,000,000 common shares and expending additional expenditures required to produce a feasibility study.

Exploration and evaluation assets as at November 30, 2022 consist costs related to the acquisition of the Edge properties of $11,588.

A summary of exploration and evaluation expenditures is as follows:

	Balance May 31 2021 $	For the year ended May 31 2022 $	Balance May 31 2022 $	For the six months ended November 30 2022 $	Balance November 30 2022 $

5. Shareholders' equity

The authorized share capital of the Company is unlimited shares without par value.

Share capital
Share capital comprises the following:

	Number of shares	Amount $
Balance, May 31, 2021 and May 31, 2022 and November 30, 2022	**18,038,681**	**32,030,596**

Stock options
The Company has adopted an incentive stock option plan (the "Plan"). The essential elements of the Plan provide that the aggregate number of shares of the Company's share capital issuable pursuant to options granted under the Plan may not exceed 10% of the issued and outstanding shares.

Options granted under the Plan may have a maximum term of five years. The exercise price of options granted under the Plan will not be less than the discounted market price of the shares (defined as the last closing market price of the Company's shares immediately preceding the issuance of a news release announcing the granting of the options, less the maximum discount permitted by TSX Venture Exchange Policy) or such other price as may be agreed to by the Company and accepted by the TSX Venture Exchange. All options granted under the Plan will become vested in full upon grant, except options granted to consultants performing investor relations activities, which options are subject to vesting restrictions such that one-quarter of the options shall vest every three months subsequent to the date of the grant of the options.

The following summary sets out the activity in the Plan:

	Options #	Weighted average exercise price $
Outstanding May 31, 2021	**-**	**-**
Granted	1,800,000	0.09
Outstanding, May 31, 2022 and November 30, 2022	**1,800,000**	**0.09**

On September 1, 2021, the Company granted 1,800,000 stock options at an exercise price of $0.09 exercisable for a period of 5 years. The options vested immediately. The fair value of the options was estimated to be $120,240 using the Black-Scholes option pricing model with the following weighted average assumptions: share price - $0.09, dividend yield - 0%; expected volatility – 100%; risk-free interest rate – 0.94%; and an expected life - 5 years.

Reserves for stock options were transferred to deficit upon expiry of the stock options.

6. Related party transactions

Compensation of key management and directors
Key management compensation expense includes the Chief Executive Officer, the Chief Financial Officer, and directors. Compensation for the six months ended November 30, 2022 was $141,000 (November 30, 2021 - $117,500). Balances owing at November 30, 2022 were $nil (May 31, 2022 - $23,962) and are included in accounts payable.

7. General and administrative expenses

For the six months ended November 30	**2022 $**	2021 $
Consulting, management and directors' fees	**141,000**	117,500
Professional fees (legal & audit)	**15,343**	18,823
Shareholder communications, advertising and promotion	**8,212**	13,025
Rent	**12,479**	12,611
Insurance	**9,064**	-
Other	**1,034**	(16,669)
	187,132	145,290

8. Capital management

The mineral properties of the Company are in the exploration and development stage and, as a result, the Company currently has no source of operating cash flow. The Company intends to raise such funds as and when required to complete its projects. There is no assurance that the Company will be able to raise additional funds on reasonable terms. The only sources of future funds presently available to the Company are through the issuance of share and debt instruments. The ability of the Company to arrange such financing in the future will depend in part upon the prevailing capital market conditions as well as the business performance of the Company. There can be no assurance that the Company will be successful in its efforts to arrange additional financing, if needed.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's

approach to capital management during the periods of these financial statements. The Company is not subject to any externally imposed capital requirements.

9. Financial instrument risk management

a) Fair value of financial instruments

The carrying value of cash, other receivables, trade and other payables approximates fair value due to the short-term nature of these financial instruments.

As of November 30, 2022, except for cash, none of the Company's financial instruments are recorded at fair value in the statements of financial position. Cash is classified as level 1 fair value.

b) Risk management

Credit risk
Credit risk is the risk of loss associated with a counter-party's inability to fulfill its payment obligations. The Company is exposed to credit risk with respect to its cash. To minimize this risk, cash has been placed with major Canadian financial institutions.

Liquidity risk
Liquidity risk is the risk that the Company cannot meet a demand for cash or fund its obligations as they come due. The Company ensures that there is sufficient capital in order to meet annual business requirements, after taking into account administrative, property holding and exploration budgets, against cash and short-term investments. As at November 30, 2022, the Company has $498,567 in cash and current liabilities of $52,118. As the Company does not have operating cash flow, the Company has and will continue to rely primarily on equity financing to meet its capital requirements.

Market risk
Market risk is the risk of loss that may arise from changes in market factors such as interest rates and foreign exchange rates.

Foreign currency risk
The Company's functional currency is the Canadian Dollar. There were minimal operational expenses and expenditures incurred by the Company in US Dollars.

The following summarizes the Canadian dollar amount of assets and liabilities denominated in other currencies

	$
Cash	**393,547**

Based on the foreign currency exposure noted above, a 10% change in the exchange rate against the Canadian dollar would result in an increase/decrease of $4,000 in net income.

The Company has not entered into any agreements or purchased any instruments to hedge possible currency risks at this time.

Interest rate risk
Aside from cash and cash equivalents, the Company has no interest-bearing assets or debts. The Company excess cash balance earns interest in the accounts holding cash. The Company reviews its interest rate exposure periodically, considering potential renewals of existing positions and alternative financial investments. The Company is not exposed to significant interest rate risk.

Price Risk
The Company has no operating revenue, as a result the market price of the commodities it is exploring for does not have a material effect on the financial results of the Company.

Title and rights
The Company has investigated title to all of its exploration properties and, to the best of its knowledge, title to all of its properties, and properties that it has the right to acquire or earn an interest in are in good standing; however, the Company's properties may be subject to prior unregistered agreements or transfers and title may be affected by undetected defects. These defects could adversely affect the Company's title to such properties or delay or increase the cost of the development of such properties.

10. Contingencies

On May 31, 2020, the Company abandoned its inactive subsidiaries KMR and LME. There were no assets or liabilities associated with these companies. KMR and LME were legally dissolved on June 1, 2020. Should the DRC government and other vendors attempt to claim past dues, there is a risk the Company would be liable for these funds. The Company believes that the risk is remote.

11. Segmented Information

The Company operates in one reportable segment, being the exploration and evaluation of mineral assets in North America.

The Company's long-lived assets are located geographically as follows:

As at November 30, 2022	**Canada $**	**United States $**
Exploration and evaluation assets	11,588	-
Reclamation bond	**-**	31,606

As at May 31, 2022	**Canada $**	**United States $**
Exploration and evaluation assets	11,588	-
Reclamation bond	**-**	31,606
